Producer TEMUR KVITELASHVILI  
Tbilisi studio of sound — recording firm  
„Melodia“. I'm very gratefull to the em-  
ployees of studio „Melodia“, to all musicians  
who took part in organization of this record.  
Thanks to all my admirers.

Temur Kvitelashvili is one of the most interesting and talented Georgian musicians.

This album is the second successful sum of his work for many years.

The compositions of rather styles are deliberated as a serious experiment in the thembral, compositional, structural and technical point of view.

Every composition performed and recorded on this disk is full of expression, romanticism, dynamics. Each of them makes us to be delighted by the virtuosity of this flamboyant musician who gives his fantasy and emotion to be free and to feel really that guitar can speak with you like a human.
